

PUMPTEC

WHERE INNOVATION FLOWS

Engineered
for Reliable,
Long-Lasting
Performance

Tile, carpets, power washing and more – our flexible pumping systems can be customized to meet your commercial cleaning needs.

Commercial cleaning applications require performance and reliability.

That's why Pumptec designs durable, high-quality pumps and pumping systems. Our custom solutions feature extremely efficient, compact motor-driven pumps with higher pressure at low flow. Ideal for mobile uses, Pumptec's precision-engineered pumps can be mounted to run in any orientation and feature a space-saving design.

With Pumptec custom pumps, you can expect:

- Carpet cleaning – the perfect low flow at 500 PSI to clean soft fibers and optimize inline electric heaters
- Hard surface cleaning – improved performance with 2.2 GPM at 1200 PSI
- Remediation – chemical compatibility and consistent output.

As part of a portable extractor, our pumps provide high reliability and durable performance with long-life, maintenance-free operation.

The oil-less design permits our pump sets to be moved around and operated in any position without fear of oil leakage and system damage. Our compact design also makes the replacement of existing pumps simple and easy.

For the hard surface cleaning, our pump technologies provide optimal performance for pressure cleaning and power washing. Our all-in-one pump system can turn any portable extractor into a tile and grout machine. Beyond basic power washing, the adjustable pressure also allows the pump system to be used for cleaning drapes, upholstery, or rug cleaning.

For your commercial cleaning pump needs, we can engineer a solution for you.

Pumptec Advantages
Pumptec designs reliable low flow, high-pressure plunger-style pumps and pump systems, precisely engineered to meet your exact performance specifications.

- Precise flow rates with consistent pressure at the nozzle
- Compact, efficient, electric-powered pumps
- Rugged, chemical-resistant, durable construction
- Long-life, low-maintenance, serviceable design
- Personalized service and support.

pumptec.com

Pumptec Pumps provide durable, reliable and affordable performance for a wide range of commercial cleaning equipment applications.

Provides unmatched performance and durability for portable carpet cleaning applications.

Pressure	50–800 PSI	Body	Anodized Aluminum
Flow	.99 GPM	Plunger	Stainless Steel
Dimensions	11.07" L x 9.28" W x 5.83" H	Power	120V, 120/230V, 230V

Offers high-pressure performance in a compact design.

Pressure	50–1000 PSI	Body	Anodized Aluminum
Flow	1 GPM	Plunger	Stainless Steel
Dimensions	11.84" L x 8.40" W x 5.85" H	Power	120/230V 50/60 HZ

Delivers high-performance operation in a compact and versatile pump design for portable cleaning equipment.

Pressure	50–500 PSI	Body	Anodized Aluminum
Flow	.72 GPM	Plunger	Stainless Steel
Dimensions	10.81" L x 6.88" W x 4.36" H	Power	120V

Turns any portable extractor into an incredible tile and grout machine.

Pressure	50 PSI to 1200 PSI (adjustable)	Body	Anodized Aluminum
Flow	2.2 GPM	Plunger	Stainless Steel
Dimensions	14" L x 11" W x 11" H	Power	120V
